

September 27, 2019

Mr. Jacob Wedesky
Wastewater Engineer – Water Quality Bureau/SE District
Wisconsin Department of Natural Resources
2300 N. Dr. Martin Luther King Jr. Dr.
Milwaukee, WI 53212

Subject: *Mercury Pollutant Minimization Program Report 2018*

Dear Mr. Wedesky:

The Milwaukee Metropolitan Sewerage District's Mercury Pollutant Minimization Plan report for the period January to December 2018 is enclosed, as required by section 9.4 of WPDES Permit WI-0036820-03-0. This report is presented utilizing the original DNR forms, with several changes, as approved by Bryan Hartsook in his e-mail of July 5, 2019.

The following forms may now be found at the end of the report:

1. Form 4A: Medical Facility Inventory (Appendix A)
2. Form 5A: Dental Facility Inventory (Appendix B)
3. Form 6A: School and Educational Facility Inventory (Appendix C)
4. Form 7A: Industry Inventory (Appendix D)

In addition, we have included an example of the outreach materials that were developed for Dental compliance. These weren't sent until 2019 but were part of the planned outreach for 2018. These can be found in Appendix E.

We have added more text describing accomplishments and plans in the major sections than we have had in the past. Since these are changes from past reports, we welcome any comments or suggestions that you or others at WDNR have. Likewise, if anything in this format does not meet your needs, please let me know.

Sincerely,

Sharon K. Mertens
Director, Water Quality Protection

Enclosure

c: Robert Liska, WIDNR

FORM 1: Mercury PMP Report Cover Sheet

WPDES Permit Holder or Sewer Authority Name: Milwaukee Metropolitan Sewerage District

Initial Plan: _____ Annual Report: X and Date Initial Plan Submitted: August 30, 2017

Report Date: September 29, 2019 Period Covered by This Report: January 1, 2018-
December 31, 2018

Name of Treatment Plant(s)	WPDES Permit Number	Mercury Effluent Limit (ng/l)
Jones Island	WI-0036820-03-0	6.4 ng/L
South Shore	WI-0036820-03-0	None ¹

Person to contact concerning information contained in this report:

Name: Elizabeth J. Stroik
 Title: Industrial Waste Pretreatment Program Coordinator
 Mailing Address: 260 W. Seeboth St.
 City, State, Zip: Milwaukee, WI 53129
 Phone Number: 414-225-2157
 Email: EStroik@mmsd.com

I have personally examined and am familiar with the information submitted in this document and attachments. Based upon my inquiry of the individuals immediately responsible for obtaining the information reported herein, I believe that the submitted information is true, accurate and complete.

September 27, 2019

 Date
 Sharon K. Mertens

 Name of Official

Director of Water Quality Protection

 Title of Official

 Signature of Official

¹ No limit applied in 2018. Permit WI-0036820-04-0 established an effluent limit, and requires monthly influent and effluent sampling.

FORM 2: Mercury PMP Summary of Resources

1. Person(s) Implementing PMP	Title
Sharon Mertens	Director of Water Quality Protection
Elizabeth Stroik	Senior Industrial Waste Engineer
Song Tran	Senior Industrial Waste Engineer
Bill Graffin	Public Information Manager
David Wozniak	General Supervisor – Point Source Control
Alfredo Sotomayor	Laboratory Manager
Sampling Staff	
Analytical Staff	

2. Total Person-Hours: 624 Hours²
Total Cost: \$71,342³

3. Are there any anticipated changes in treatment plant resources that would significantly change program hours or costs during the subsequent year, such as involving or hiring more personnel, purchasing equipment to implement the pollutant minimization program, or conducting compliance monitoring?

X Yes No If yes, explain

As part of our annual summer internship program, MMSD plans to hire two interns to focus on this program.

The new WPDES permit requires quarterly mercury sampling at the water supply (MWW Linnwood Treatment Plant).

4. Collaboration on mercury reduction activities is encouraged. Did any other municipal departments, county agencies, non-profit organizations, or other municipalities help implement part of your mercury reduction program?

Yes X No If yes, explain

5. The following table shows mercury collection opportunities available within the District's service area.

² Include time of all staff involved in administering and implementing the various program areas, e.g. Pretreatment Coordinator, Superintendent of POTW, Clerical Staff, Field Monitoring Personnel, Laboratory Personnel, and others.

³ Include all administrative, monitoring, laboratory staff, and equipment costs including monitoring/analytical work done by an outside laboratory

FORM 2: Mercury PMP Summary of Resources Continued

Area Served	Type of Material	Availability	Operator
Milwaukee County	Household Hazardous Waste	Permanent drop-off sites open year around. FORM 4A: Medical Facility Inventory

See Appendix A

FORM 4C: Medical Facility Compliance and Outreach Summary

General Outreach to All Medical Facilities

Outreach Accomplished:

District staff reviewed its inventory list of medical facilities and updated names and contact information as necessary. All facilities have implemented or scheduled all BMPs, and two need to be verified. Mercury minimization for medical facilities is a mature program in the District. Elimination of mercury and mercury-containing devices has been demonstrated by participation in past collection programs and industry standard purchasing practices are to use non-mercury containing temperature measurement devices, thermostats, etc. Historical sampling has confirmed compliance with local wastewater limits. Monitoring for these facilities will continue on an ad hoc basis.

Outreach Planned:

Best management practice status will be verified for Froedtert Hospital and Milwaukee VA Medical Center. The District will review new facilities to determine whether they need to be added to the inventory and to keep our listings current. Updates and reminders will be included as part of any inspection or other outreach to this sector. Addresses, names and contacts for these facilities will be verified annually.

Sector Evaluation

<u>90</u>	% Implemented All BMPs
<u>10</u>	% Scheduled to Implement All BMPs
<u>100</u>	% In Compliance with Local Wastewater Limits

Enter on Form 10 under IB: Dental Sector Score

Notes:

FORM 5A: Dental Facility Inventory

See Appendix B

FORM 5C: Dental Facility Compliance and Outreach Summary

General Outreach to All Dental Facilities

Outreach Accomplished:

MMSD staff inspected 10 dental offices and reviewed MMSD’s records associated with dental facilities and updated those as appropriate. 40 CFR 411 Dental Category reporting requirements were discussed during those inspections, along with an estimated timetable for implementation.

Dental Facilities Visited in 2018

Name of Facility	Implemented All BMPs
Franklin Dental	X
Golden Oak Dental Care	X
Greenfield Optimal Dental Care	X
Greenfield Smiles	X
High Point Dentistry	X
Kuffel Dental	X
Lakeshore Family Dentistry	X
New Berlin Dental Group	X
Pewaukee Dental	X
Sweet Tooth Dental	X

158 offices, that place or remove amalgam, were previously inspected by District staff, prior to 2018.

Outreach Planned:

The District expects to increase outreach and inspections in the period 2019-2020 to ensure that area facilities meet the 2020 compliance date. MMSD staff will prepare mailings and contact or visit all area dentists who must meet the requirements of the new rule (approximately 520 dentists). Addresses, names and contact information for these facilities will be updated annually. The District will develop information and reporting forms for the dental community to be available on our website. Examples of those outreach materials may be found in Appendix E.

Sector Evaluation

<u>98</u>	% Implemented All BMPs
<u>2</u>	% Scheduled to Implement All BMPs
<u>N/A</u>	% In Compliance with Local Wastewater Limits
<u>100</u>	% Total Compliant (Dental Mercury PMP Score)

Enter on Form 10 under IB: Dental Sector Score

Notes:

FORM 6A: School and Educational Facility Inventory

See Appendix C

FORM 6C: School and Educational Facility Compliance and Outreach Summary

General Outreach to All School and Educational Facilities

Outreach Accomplished:

Wisconsin Act 44 enacted in 2009, bans K-12 schools from purchasing any equipment or materials that contain mercury, storing mercury anywhere in the building and requires that these schools remove all traces of mercury from labs, equipment, and machinery. While these provisions do not apply to Wisconsin colleges and universities, the Act does apply and regulates mercury sales for all state citizens.

The District has reached out to local schools in the past as reported in previous PMP updates. During 2018, 66 schools that had not reported implementation of BMPs were contacted. A total of 31 were verified to be in compliance.

Outreach Planned:

The 35 remaining Milwaukee area universities, colleges, and schools will be contacted regarding whether best management practices have been implemented. General educational outreach to encourage pollution prevention will continue.

Sector Evaluation:

<u>91</u>	% Implemented All BMPs
<u>0</u>	% Scheduled to Implement All BMPs
<u>N/A</u>	% In Compliance with Local Wastewater Limits
<u>91</u>	% Total Compliant (Dental Mercury PMP Score)

Enter on Form 10 under IC: School Sector Score

Notes:

All Milwaukee Public Schools (MPS) have implemented best management practices. Although non-MPS schools have been generally unresponsive to mailings regarding BMPs, past "Clean Sweeps" and other collection programs have been highly successful. More attention will be focused on assessing best management practices by District schools in 2019.

FORM 7A: Industry Inventory

See Appendix D

FORM 7C: Industry Compliance and Outreach Summary

General Outreach to All Industrial Facilities

Outreach Accomplished

The District performed discharge sampling at all significant industrial users within its service area that have a potential for mercury wastewater contributions. A total of 193 sample results were obtained, including 91 (%) no-detects and no violations (including industrial parks). At industrial parks, no investigations for high mercury concentrations were performed during 2018. Inspections were also performed per individual permit requirements.

Outreach Planned

Sampling and enforcement, if necessary, will continue at all significant industrial users. Industrial parks will also be sampled once per year, for three consecutive days. If sampling identifies high mercury concentrations, then tracking of the source will occur. Inspections will also continue per permit requirements.

Sector Evaluation:

Outreach may include a site visit, an inspection, sampling, etc. Identify type and date. Add additional pages as necessary.

Form 8A: Public Mercury Checklist and Outreach Summary

Best Management Practices for mercury are defined as reducing household use of new mercury-containing products and recycling (rather than discarding) old mercury-containing products.

List participation by households in reducing their use of new mercury containing products (i.e.: retail stores that no longer sell mercury fever thermometers) and participation by households in recycling their old mercury-containing products (i.e.: “CleanSweep” events for mercury thermometers). Include adoption of local ordinances that affect mercury product sale or recycling. *Note: Common household mercury products include fever and other thermometers, thermostats, “silent” light switches, and containers of liquid mercury. Attach additional sheets as necessary.*

Household Mercury Product	Discontinued Sale (Describe)	Recycled Products
Mercury waste collected by the Household Hazardous Waste Collection Program (excluding fluorescent lamps)		364 Pounds

Outreach activities to households (and retail stores). List date accomplished. Attach additional sheets as necessary.

Activity:	Website/Ads in Paper/Displays	Mailings/Surveys	Collection Events	Workshops/Community Events	Site Visits/Personal Contacts	Other: Describe
Date	January 1 – December 31		Mobile: April 7 & 8			30+ Social Media Posts

Form 9A: Historical Mercury PMP Score

This form gives credit to your POTW for mercury reduction projects completed before implementing a Mercury PMP. The information on the form will not change from year to year. The form is divided into outreach aimed at wastewater sectors and outreach aimed at optional sectors (dairy manometer outreach refers to farms that have participated in replacing and recycling their milk house mercury manometers). For each outreach activity that your POTW has done in the past, put a check in the corresponding box. To calculate your Historical Mercury Score, count the total number of boxes checked and enter that number in the box on the bottom of the page and on Form 10.

		Outreach Activities						Sector Accomplishments

FORM 9B: Extra-jurisdictional Mercury PMP Score

This form gives credit for mercury projects your POTW has completed outside the treatment plant service area. For the initial plan, include all activities you have implemented. For the annual report, include all activities that have occurred only in the past 12 months. The form is divided into outreach aimed at wastewater sectors and outreach aimed at optional sectors. For each outreach activity or sector accomplishment, put a check in the corresponding box.

To calculate your Extra-jurisdictional Mercury Score, count the total number of boxes checked and enter that number in the box on the bottom of the page and on Form 10.

Annual Report: Enter on Form 10 under IIIB: Extra-jurisdictional Score

FORM 10: Community Mercury PMP Score

Facility Name: Milwaukee Metropolitan Sewerage District

Report Date: September 27, 2019

I. Wastewater Sectors: (Should to be included in Mercury PMP Plan)

Sector	Sector Score	x	Weighting Factor *	=	Weighted Sector Score
A: Medical (From Form 4C)	100	x	(0.15)	=	15
B: Dental (From Form 5C)	100	x	(0.50)	=	50
C: School (From Form 6C)	91	x	(0.15)	=	13.6
D: Industry (From Form 7C)	100	x	(0.20)	=	20

Total Wastewater Sectors Score

98.6

Weighting factor is the relative fraction of mercury to POTW that is attributable to each sector. If you know what fraction comes from each sector you can adjust accordingly. The weighting factors must add up to 1. Use default values in parenthesis above if unknown.

II. Other Community Sectors: (May be included in Mercury PMP Plan)

Sector	Sector Score	x	Weighting Factor **	=	Weighted Sector
A: General Public (From Form 8A)	100	x	(0.1)	=	10
B: HVAC (From Form 8B)	41	x	(0.1)	=	4.1
C: Auto Switch (From Form 8C)	49	x	(0.1)	=	4.9
D: Fluorescent Bulb (From Form 8D)	100	x	(0.1)	=	10

Total Other Community Sectors Score

29

** Weighting factor is between 0.0 and 0.1. Wisconsin's weighting factor is 0.1.

III. Other Community Sectors: (May be included in Mercury PMP Play)

Sector	Sector Score	x	Weighting Factor **	=	Weighted Sector Score
A: Historical (From Form 9A)	32	x	(0.1)	=	3.2
B: Extra-jurisdictional (From Form 9B)	0	x	(0.1)	=	0.0

Total Other PMP Credits Score

3.2

** Weighting factor is between 0.0 and 0.1. Wisconsin's weighting factor is 0.1.

IV. Community Mercury PMP Score:

Total Score

Sum of Wastewater Sectors, Other Community Sectors and Other PMP Credits

130.8

Subject: *One-Time Compliance Report for Dental Amalgam Rule*

Dear Name:

On June 14, 2017, the Environmental Protection Agency (EPA) established Effluent Limitations Guidelines and Standards for the Dental Category (40 CFR Part 441) that became effective on July 14, 2017. The rule applies to wastewater discharges to the Milwaukee Metropolitan Sewerage District (MMSD or District) from offices where the practice of dentistry is performed, including: large institutions such as dental schools and clinics; permanent or temporary offices; home offices; and dental facilities owned and operated by the military and federal, state, or local governments. The EPA rule requires the above listed dental facilities to submit to MMSD a One-Time Compliance Report.

To assist in your compliance with this federal requirement, the District has developed the enclosed Dental Amalgam One-Time Compliance Report. The report has a total of four sections, which are outlined below:

- Section A: General Information – Must be completed by all facilities
- Section B: Facility Information – Must be completed by all facilities
- Section C: Description of Operations – To be completed by facilities that are required to have amalgam separators (non-exempt dischargers)
- Section D: Certification Statements and Signature – Must be completed by all facilities

A timely response will ensure your facility's compliance with the new dental rule. Therefore, please return the report by June 20, 2019, via email to iwpp@mmsd.com or mail to 260 W. Seeboth St., Milwaukee, WI 53204.

Thank you in advance for your assistance. If you have any questions regarding this report, please contact the District at the above email address.

Sincerely,

Sharon K. Mertens

Water Quality Protection, Director

Industrial Pretreatment Program Dental Amalgam One-Time Compliance Report

Instructions:

Regulations for mercury discharges from dental offices (dischargers) have been established in the U.S. Code of Federal Regulations (CFR), Title 40: Protection of Environment. These Dental Effluent Guidelines are located at 40 CFR Part 441. Your facility is required to complete the Dental Amalgam One-Time Compliance Report because it discharges its wastewater to the Milwaukee Metropolitan Sewerage District (MMSD or District). The District is required to identify all dental offices in its service area that are subject to the rule, notify these offices of the applicable requirements and ensure that the offices comply with the rule.

1. All offices must complete Section A and Section B and have an Authorized Representative sign under Section D. Non-exempt offices must also complete Section C and check the certification boxes at Section D.1 and D.2.
2. If you would prefer, a fillable form is available on our website to complete, print and mail.
3. Please fill out this form, sign, scan, and email to iwpp@mmsd.com. You may also mail the form to:

Milwaukee Metropolitan Sewerage District
Attn: IWPP
260 W. Seeboth Road
Milwaukee, WI 53204.

IMPORTANT:

Falsification of information on this form or failure to respond may be grounds for termination of service or result in civil and/or criminal penalties.

Section A: General Information

1. Please select your status:

Dental Discharger-Non-exempt
-or-

Dental Discharger-Exempt (please select reason):

Our office exclusively practices one or more of the following dental specialties: Oral Pathology, Oral and maxillofacial radiology, Oral and maxillofacial surgery, Orthodontics, Periodontics, Prosthodontics

Operate a mobile unit exclusively

Our office does not discharge any amalgam process wastewater to MMSD. All dental amalgam process wastewater is collected and transferred to a Centralized Waste Treatment facility as defined in 40 CFR Part 437. Please name the transporter and destination:

Our office does not place amalgam and does not remove amalgam except in limited emergency or unplanned, unanticipated circumstances. *If you claim this exemption, you must check the certification box in Section D.3.

2. If a One-Time Compliance Report was previously submitted, check all changes that apply:

- Change in ownership
- Change in exempt status
- Change in location
- Facility name change

Section B: Dental Discharger Information

1. Facility Name:	
2. Facility Physical Address:	
3. Mailing Address (if different):	
4. Facility Telephone:	
5. Name of Owner/Operator:	
6. Person to whom any further inquiries should be directed:	
7. Title:	
8. Phone:	
9. Email:	

Section C: Description of Operations (to be completed by non-exempt dischargers)

1. What is the total number of chairs at this facility? _____
2. What is the total number of chairs at this facility at which dental amalgam may be present in the resulting wastewater? _____
3. Please provide information on all amalgam removal device(s) in use at this facility:

Attach additional pages if necessary.

Type of Amalgam removal device:	<input type="checkbox"/> Amalgam Separator <input type="checkbox"/> Amalgam removal device other than an amalgam separator
Location:	<input type="checkbox"/> Centralized <input type="checkbox"/> Chairside
Make:	
Model:	
Year of installation:	
Max. water flow rate of device (provided by manufacturer):	

Type of Amalgam removal device:	<input type="checkbox"/> Amalgam Separator <input type="checkbox"/> Amalgam removal device other than an amalgam separator
Location:	<input type="checkbox"/> Centralized <input type="checkbox"/> Chairside
Make:	
Model:	
Year of installation:	
Max. water flow rate of device (provided by manufacturer):	

Type of Amalgam removal device:	<input type="checkbox"/> Amalgam Separator <input type="checkbox"/> Amalgam removal device other than an amalgam separator
Location:	<input type="checkbox"/> Centralized <input type="checkbox"/> Chairside
Make:	
Model:	
Year of installation:	
Max. water flow rate of device (provided by manufacturer):	

4. For amalgam removal devices ***other than an amalgam separator***, a demonstration of the following requirements must be provided:
- a. Removal efficiency of at least 95 percent of the mass of solids from all amalgam process wastewater. The removal efficiency must be calculated in grams recorded to three decimal places, on a dry weight basis. The removal efficiency must be demonstrated at the maximum water flow rate through the device as established by the device manufacturer’s instructions for use.
 - b. The removal efficiency must be determined using the average of three performance samples. The removal efficiency must be demonstrated using a test sample of dental amalgam that meets the following particle size distribution specifications: 60 percent by mass of particles that pass through a 3150 µm sieve but which do not pass through a 500 µm sieve, 10 percent by mass of particles that pass through a 500 µm sieve but which do not pass through a 100 µm sieve, and 30 percent by mass of particles that pass through a 100 µm sieve. Each of these three specified particle size distributions must contain a representative distribution of particle sizes.
 - c. The device(s) must be sized to accommodate the maximum discharge rate of amalgam process wastewater.

Please provide the following device demonstration information:

Attach additional pages if necessary.

Removal Efficiency (%-based on avg. of 3 performance samples):	
Max. water flow rate established by manufacturer:	
Water flow rate used in test:	
Performance Sample Results:	
Performance Sample 1 Removal Efficiency:	
Performance Sample 2 Removal Efficiency:	
Performance Sample 3 Removal Efficiency:	

5. Does the facility use a third-party service provider to maintain the amalgam separator(s) or equivalent devices(s)?
 YES NO

If "Yes," please name the provider _____

If "No," please provide a brief description of the practices employed by your office to ensure proper operation and maintenance in accordance with §441.30 or §441.40

Section D: Certification Statements and Signature

1. I certify that all amalgam process wastewater is treated by one or more amalgam separators or amalgam removal devices and that the amalgam separator(s) or equivalent device(s) is designed and will be operated and maintained to meet the requirements specified in §441.30 or §441.40.

2. I certify that my office is implementing the Best Management Practices (BMPs) specified in §441.30(b) or §441.40(b) and will continue to do so.

-or-

3. Exemption Certification - Our office does not place amalgam and does not remove amalgam except in limited emergency or unplanned, unanticipated circumstances.

“I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.”
