

### STORM WATER MANAGEMENT WEBSITES

<http://clean-water.uwex.edu/pubs/#wl>. This UW-Extension website provides publications on a variety of stormwater and water quality related topics.

<http://dnr.wi.gov/runoff/stormwater.htm>. The Wisconsin Department of Natural Resources' website includes a variety of stormwater management topics related to the State of Wisconsin's regulations and Technical Standards.

<http://www.mmsd.com>. This, the Milwaukee Metropolitan Sewerage District's website, provides many ways to learn more about SWM.

<http://riveredge.us/default.aspx?id=52>. This, the Riveredge Nature Center's website, is where students make the connection using the environment as an outdoor laboratory, promoting learning in a practical hands-on experience, enabling students to explore the environment as if they were scientists.

<http://www.sewrpc.org/SEWRPC/Environment/FloodlandandStormwareManagement.htm>. The Southeastern Wisconsin Regional Planning Commission's website contains stormwater management plans for several communities and provides floodland and stormwater management materials and links.

<http://www.stormwatercenter.net/>. One very instructive feature of this USEPA site is a set of "Stormwater Slideshows" covering many aspects of SWM. Also included are a large glossary and "Pollution Prevention" fact sheets.

<http://www.swwtwater.org/home/>. The Southeastern Wisconsin Watershed Trust, Inc.'s website, includes watershed maps, projects, publications, and other valuable resources addressing Greater Milwaukee Watersheds.

<http://www.watershedkit.com>. Source of Make Your Own Watershed Kit.

<http://www.wef.org>. The Water Environment Federation's website includes sections for elementary, secondary and college/university students and for teachers.

[www.worldwatermonitoringday.org](http://www.worldwatermonitoringday.org). The World Monitoring Day website is an on-line resource where students can annually monitor the water quality of a lake, stream, or other water body and report the results, allowing for comparisons to be made from year to year.
