

## *Table of Contents*

### **Chapter 1: Introduction ..... 1-1**

1.1	Background .....	1-1
1.2	Objectives of the Production Theory Analysis.....	1-5

#### *Chapter 1*

##### *Figures*

1-1	RWQMPSU Study Area and MMSD 2020 Planning Boundary .....	1-2
1-2	Production Theory Methodology .....	1-4
1-3	Relationship of SOAR to the RWQMPSU and the 2020 FP Screening Alternatives .....	1-6

### **Appendix 1A: Production Theory ..... 1A-1**

1A.1	Cost Function .....	1A-2
1A.2	Production Function .....	1A-4
1A.3	Cost Benefit Relationship.....	1A-4
1A.4	Interaction with Other Control Technologies.....	1A-7

#### *Appendix 1A*

##### *Figures*

1A-1	Example of Cost Function.....	1A-3
1A-2	Example of Production Function.....	1A-5
1A-3	Example of Cost Benefit .....	1A-6

### **Chapter 2: Technology/Indicator Analysis ..... 2-1**

2.1	Introduction .....	2-1
2.2	Development of Indicators .....	2-1
2.3	Technology List Development .....	2-3
2.4	Technologies Classified as Facilities, Programs, Operational Improvements, and Policies.....	2-4

2.5	Organizing and Ranking of Indicator/Technology Combinations .....	2-4
2.5.1	Development Indicator/Technology Combinations .....	2-4
2.5.2	Development of Ranking Matrix for Technology Screening.....	2-5
2.5.3	Assign Primary Indicator and Combine Similar Technologies.....	2-9
2.6	Organize Technologies Into Categories .....	2-9

## **Chapter 2**

### *Tables*

2-1	Results of Stakeholder Committee Weighting Exercises.....	2-5
2-2	Indicator/Technology Scoring System .....	2-8
2-3	Technologies to be Analyzed using the Production Theory.....	2-11
2-4	Sewer Separation Technologies .....	2-14
2-5	Technologies that MMSD is Evaluating in Active Project(s).....	2-15
2-6	Beneficial Technologies not Analyzed.....	2-16
2-7	Existing Policies or Programs .....	2-18
2-8	Technologies Eliminated in Screening.....	2-20

## **Appendix 2A: Technology List and Technology/Indicator Combinations . 2A-1**

2A.1	Introduction .....	2A-2
------	--------------------	------

### **Appendix 2A**

#### *Tables*

2A-1	Potential Technologies to Address Point Source and Nonpoint Source Pollution .....	2A-3
2A-2	List of Technology/Indicator Combinations .....	2A-9

<b>Chapter 3: Point Source Technologies.....</b>	<b>3-1</b>
3.1 Introduction .....	3-1
3.2 Volume Indicators .....	3-1
3.2.1 Analysis Development .....	3-1
3.2.2 Limitations of Analytical Methods.....	3-2
3.2.3 Summary of Cost Benefit Curves.....	3-2

### **Chapter 3**

#### *Tables*

3-1 Relative Total Present Worth Cost for Levels of Protection: SSO and CSO Volume Reduction.....	3-11
--	------

### **Chapter 3**

#### *Figures*

3-1 SSO Volume Cost Benefit Curves .....	3-4
3-2 SSO Events Cost Benefit Curves .....	3-5
3-3 CSO Volume Cost Benefit Curves.....	3-7
3-4 (Zoom-in View) CSO Volume Cost Benefit Curves.....	3-8
3-5 CSO Events Cost Benefit Curves.....	3-9

### **Appendix 3A: Point Source Technologies ..... 3A-1**

3A.1 Introduction .....	3A-2
3A.1.1 Volume Indicators .....	3A-2
3A.1.2 Other Technologies .....	3A-3
3A.1.3 Present Worth Development .....	3A-3
3A.1.4 Volume Indicator Production Functions Model Development .....	3A-8
3A.2 Storage and Conveyance Technologies.....	3A-10
3A.2.1 Technology: Deep Tunnel Storage.....	3A-10
3A.2.2 Technology: Cavern Storage.....	3A-26
3A.2.3 Technology: Volume Reserved for Separate Sewer Inflow .....	3A-30

3A.2.4	Technology: Inline Storage System Pumping .....	3A-41
3A.2.5	Technology: Covered Near Surface Storage .....	3A-58
3A.2.6	Technology: Metropolitan Interceptor Sewer In-System Storage.....	3A-61
3A.2.7	Technology: Inlet Restrictors .....	3A-72
3A.2.8	Technology: Rooftop Storage .....	3A-76
3A.3	Wastewater Treatment Plant Technologies.....	3A-80
3A.3.1	Technology: South Shore Wastewater Treatment Plant Capacity .....	3A-80
3A.3.2	Physical-Chemical (chemical flocculation) Secondary Treatment Process .....	3A-86
3A.3.3	Technology: Jones Island Wastewater Treatment Plant Capacity .....	3A-103
3A.3.4	Technology: Satellite Combined Sewer Treatment near CT-5/6 .....	3A-112
3A.4	Technology: Infiltration and Inflow Reduction.....	3A-120
3A.4.1	Overview of Approach .....	3A-120
3A.4.2	Baseline Infiltration and Inflow in Sewersheds (Pre-Rehabilitation Rates).....	3A-122
3A.4.3	Infiltration and Inflow Reduction – Performance Based Unit Cost Function .....	3A-125
3A.4.4	Infiltration and Inflow Reduction – Calculation Method.....	3A-125
3A.4.5	Cost Function .....	3A-128
3A.4.6	Production Functions.....	3A-128
3A.4.7	Cost Benefit Curve .....	3A-132
3A.5	Maximum Practical Sewer Separation for the Combined Sewer Service Area .....	3A-132
3A.5.1	Introduction .....	3A-132
3A.5.2	Prior Analysis of Complete Sewer Separation .....	3A-132
3A.5.3	Definition of Sewer Separation for the 2020 Facilities Plan.....	3A-135
3A.5.4	Production Function .....	3A-136
3A.5.5	Cost Benefit Curve .....	3A-141
3A.5.6	Summary .....	3A-141
3A.6	Sewer Separation – Shorewood Project .....	3A-141
3A.6.1	Introduction .....	3A-141
3A.6.2	Design Factors.....	3A-144
3A.6.3	Experience .....	3A-145
3A.6.4	Production Function .....	3A-145
3A.6.5	Cost Function and Cost Benefit.....	3A-145

3A.6.6	Summary .....	3A-145
3A.7	Partial Sewer Separation / Downspout Disconnection .....	3A-146
3A.7.1	Introduction .....	3A-146
3A.7.2	Design Factors .....	3A-146
3A.7.3	Experience .....	3A-148
3A.7.4	Production Function .....	3A-148
3A.7.5	Cost Function .....	3A-148
3A.7.6	Cost Benefit Curve .....	3A-149
3A.7.7	Summary .....	3A-149
3A.8	Technology: Partial Sewer Separation / Downspout Disconnection and Catch Basin Modification .....	3A-149
3A.8.1	Introduction .....	3A-149
3A.8.2	Design Factors .....	3A-149
3A.8.3	Experience .....	3A-151
3A.8.4	Production Function .....	3A-151
3A.8.5	Cost Function .....	3A-151
3A.8.6	Cost Benefit Curve .....	3A-152
3A.8.7	Summary .....	3A-152
3A.9	Partial Sewer Separation / Stormwater Disconnection (Rust/Harza Study).....	3A-152
3A.9.1	Introduction .....	3A-152
3A.9.2	Design Factors .....	3A-152
3A.9.3	Experience .....	3A-153
3A.9.4	Production Function .....	3A-153
3A.9.5	Cost Function .....	3A-153
3A.9.6	Cost Benefit Curve .....	3A-153
3A.9.7	Summary .....	3A-153
3A.10	Other Technologies .....	3A-154
3A.10.1	Total Suspended Solids Indicator .....	3A-154
3A.10.2	Coliform Indicator .....	3A-155
3A.10.3	Nitrogen Indicator .....	3A-158
3A.10.4	Phosphorus Indicator .....	3A-159

**Appendix 3A***Figures*

3A-1	Schematic of Process to Create the Cost Benefit Curves .....	3A-7
3A-2	SSO Volume Production Functions: Deep Tunnel Storage .....	3A-13
3A-3	Percent SSO Volume Production Functions: Deep Tunnel Storage .....	3A-14
3A-4	CSO Volume Production Functions: Deep Tunnel Storage .....	3A-15
3A-5	Total Overflow Volume Production Functions: Deep Tunnel Storage.....	3A-16
3A-6	SSO Event Production Functions: Deep Tunnel Storage .....	3A-18
3A-7	CSO Event Production Functions: Deep Tunnel Storage.....	3A-19
3A-8	Cost Function: Deep Tunnel Storage .....	3A-20
3A-9	Unit Cost: Deep Tunnel Storage.....	3A-23
3A-10	SSO Volume Cost Benefit Curves: Deep Tunnel Storage .....	3A-24
3A-11	SSO Event Cost Benefit Curves: Deep Tunnel Storage.....	3A-25
3A-12	CSO Volume Cost Benefit Curves: Deep Tunnel Storage.....	3A-27
3A-13	CSO Event Cost Benefit Curves: Deep Tunnel Storage .....	3A-28
3A-14	Total Overflow Volume Cost Benefit Curves: Deep Tunnel Storage.....	3A-29
3A-15	Simulated CSO and SSO Events During the Period of Record as a Function of VRSSI.....	3A-32
3A-16A	Simulated SSO Recurrence Interval as a Function of VRSSI .....	3A-33
3A-16B	Simulated CSO Frequency as a Function of VRSSI .....	3A-34
3A-17	Simulated Number of CSOs Each Year During Period of Record for 2020 Baseline Condition with Fixed VRSSI of 150 MG .....	3A-36
3A-18	Average and Maximum Number of CSOs Each Year During the Period of Record.....	3A-37
3A-19	Simulated Average Annual Total Overflow Volume as a Function of VRSSI.....	3A-38
3A-20	Overflow Volume Production Functions: VRSSI for 2020 Baseline Conditions .....	3A-39
3A-21	Overflow Event Production Functions: VRSSI for 2020 Baseline Conditions.....	3A-40
3A-22	Schematic of the ISS Pumped Flow to the Wastewater Treatment Plants .....	3A-42
3A-23	Simulated JIWWTP Flow for March 1960 as a Function of Additional ISS Pump Capacity .....	3A-45
3A-24	Simulated SSWWTP Flow for March 1960 as a Function of Additional Pump Capacity .....	3A-46

3A-25	Overflow Volume Production Functions: Additional ISS Pumping to JIWWTP.....	3A-48
3A-26	Overflow Event Production Functions: Additional ISS Pumping to JIWWTP .....	3A-49
3A-27	Overflow Volume Production Functions: Additional ISS Pumping to SSWWTP ...	3A-50
3A-28	Overflow Event Production Functions: Additional ISS Pumping to SSWWTP.....	3A-51
3A-29	Unit Costs: Additional ISS Pumping.....	3A-52
3A-30	Cost Functions: Additional ISS Pumping .....	3A-53
3A-31	SSO Volume Cost Benefit Curves: Additional ISS Pumping.....	3A-54
3A-32	SSO Event Cost Benefit Curves: Additional ISS Pumping .....	3A-55
3A-33	CSO Volume Cost Benefit Curves: Additional ISS Pumping .....	3A-56
3A-34	CSO Event Cost Benefit Curves: Additional ISS Pumping.....	3A-57
3A-35	Overflow Volume Production Functions: Near Surface Storage .....	3A-59
3A-36	Overflow Event Production Functions: Near Surface Storage.....	3A-60
3A-37	Unit Costs: Near Surface Storage Facilities .....	3A-62
3A-38	Cost Function: Near Surface Storage .....	3A-63
3A-39	SSO Volume Cost Benefit Curve: Near Surface Storage.....	3A-64
3A-40	SSO Event Cost Benefit Curve: Near Surface Storage .....	3A-65
3A-41	CSO Volume Cost Benefit Curve: Near Surface Storage .....	3A-66
3A-42	CSO Event Cost Benefit Curve: Near Surface Storage.....	3A-67
3A-43	Overflow Volume Production Functions: MIS In-System Storage.....	3A-69
3A-44	Overflow Volume Production Functions: MIS In-System Storage (Zoom-in Scale)	3A-70
3A-45	Typical Construction Cost for Wastewater Pipelines.....	3A-71
3A-46	Cost Function: MIS In-System Storage for 10-Foot Oversized Pipe in Place of 4-Foot Pipe .....	3A-73
3A-47	SSO Volume Cost Benefit Curve: MIS In-System Storage .....	3A-74
3A-48	SSO Event Cost Benefit Curve: MIS In-System Storage.....	3A-75
3A-49	CSO Volume Cost Benefit Curve: Inlet Restrictors.....	3A-77
3A-50	CSO Volume Cost Benefit Curve: Rooftop Storage.....	3A-79
3A-51	Overflow Volume Production Functions: Additional Treatment Capacity at SSWWTP.....	3A-83
3A-52	Overflow Event Production Functions: Additional Treatment Capacity at SSWWTP.....	3A-84
3A-53	Cost Functions: Additional SSWWTP Capacity .....	3A-85

3A-54	SSO Volume Cost Benefit Curves: Additional Treatment at SSWWTP .....	3A-87
3A-55	SSO Event Cost Benefit Curves: Additional Treatment at SSWWTP .....	3A-88
3A-56	CSO Volume Cost Benefit Curves: Additional Treatment at SSWWTP .....	3A-89
3A-57	CSO Event Cost Benefit Curves: Additional Treatment at SSWWTP .....	3A-90
3A-58	Modified Block Flow Diagram for the New Physical-Chemical (chemical flocculation) Treatment Process Modification to SSWWTP .....	3A-94
3A-59	Alternative Modified Block Flow Diagram for the New Physical-Chemical (chemical flocculation) Treatment Process Modification to SSWWTP .....	3A-95
3A-60	Arial View of SSWWTP with Proposed Physical-Chemical (chemical flocculation) Treatment Modifications .....	3A-96
3A-61	Overflow Volume Production Functions: Additional Capacity at JIWWTP .....	3A-105
3A-62	Overflow Event Production Functions: Additional Capacity at JIWWTP .....	3A-106
3A-63	Cost Functions: Additional JIWWTP Capacity .....	3A-107
3A-64	SSO Volume Cost Benefit Curves: Additional Treatment at JIWWTP .....	3A-108
3A-65	SSO Event Cost Benefit Curves: Additional Treatment at JIWWTP .....	3A-109
3A-66	CSO Volume Cost Benefit Curves: Additional Treatment at JIWWTP .....	3A-110
3A-67	CSO Event Cost Benefit Curves: Additional Treatment at JIWWTP .....	3A-111
3A-68	MOUSE Model Result, CSO Hydrograph for CT-5/6, March 1960 .....	3A-113
3A-69	MOUSE Model Result, CSO Hydrograph for CT-5/6, August 1986 .....	3A-114
3A-70	MOUSE Model Result, CSO Hydrograph for CT-5/6, April 23, 1999 .....	3A-115
3A-71	CSO Volume Production Function: Satellite Treatment Using Additional Deep Tunnel Storage As Surrogate .....	3A-117
3A-72	CSO Volume Production Function: Satellite Treatment Using Additional Deep Tunnel Storage As Surrogate (Zoom-in Window) .....	3A-118
3A-73	CSO Volume Production Function: Auxiliary WWTP at CT-5/6 .....	3A-119
3A-74	Overflow Volume Production Functions: Additional JIWWTP Capacity .....	3A-121
3A-75	Distribution of Sewershed I/I Rates per Unit Area .....	3A-123
3A-76	Relative Distribution of I/I Peak Flow .....	3A-124
3A-77	Performance-Based Unit Cost: I/I Removal .....	3A-126
3A-78	Progressive Levels of I/I Reduction .....	3A-127
3A-79	Cost Function: I/I Reduction .....	3A-129
3A-80	SSO Volume Production Function: I/I Reduction .....	3A-130

3A-81	SSO Event Production Function: I/I Reduction .....	3A-131
3A-82	SSO Volume Cost Benefit Curve: I/I Reduction.....	3A-133
3A-83	CSO Volume Cost Benefit Curves: Sewer Separation Technologies and Other Technologies.....	3A-142
3A-84	CSO Volume Cost Benefit Curves: Sewer Separation Technologies and Other Technologies (Zoom-in first 20% of CSO Reduction).....	3A-143

### ***Appendix 3A***

#### *Tables*

3A-1	SSO and CSO Pollutant Concentrations Used in the Water Quality Model .....	3A-4
3A-2	SSO and CSO Pollutant Concentrations Used in the Water Quality Model .....	3A-5
3A-3	SSO and CSO Pollutant Concentrations Used in the Water Quality Model .....	3A-6
3A-4	Baseline Operational Parameters and Simulation Conditions.....	3A-9
3A-5	Unit Costs for Deep Tunnel Storage based on MMSD Experience .....	3A-22
3A-6	Summary of VRSSI Results for Level of Protection .....	3A-41
3A-7	Sensitivity to Operational Change: All Three Pumps to JIWWTP .....	3A-43
3A-8	Cost Function Combinations.....	3A-80
3A-9	Summary of Suspended Solids Removal .....	3A-91
3A-10	Summary of Biochemical Oxygen Demand Removals.....	3A-92
3A-11	Physical-Chemical (chemical flocculation) Equipment.....	3A-98
3A-12	Physical-Chemical (chemical flocculation) Treatment (Only) Facility Cost Estimate Summary .....	3A-100
3A-13	Capital Cost Development for Physical-Chemical (chemical flocculation) Treatment at South Shore Wastewater Treatment Plant.....	3A-102
3A-14	Summary of Physical-Chemical (chemical flocculation) Treatment Lifecycle Costs .....	3A-103
3A-15	Number of Sewersheds Affected by I/I Reduction Levels.....	3A-128
3A-16	Summary of Construction Costs for Sewer Separation.....	3A-139
3A-17	Cost Function: 2020 Baseline Partial Separation With and Without Catch Basin Inlet (Downspouts Only and Downspouts with Catch Basin).....	3A-150
3A-18	Total Suspended Solids Indicator: Treatment Plant Effluent Filtration .....	3A-155
3A-19	Coliform Indicator: Treatment Plant UV Disinfection for Existing 2000 Capacity .....	3A-157

3A-20	Coliform Indicator: Treatment Plant UV Disinfection for Additional 50% Capacity.....	3A-157
3A-21	Coliform Indicator: Treatment Plant Membrane Filtration.....	3A-158
3A-22	Biological Nutrient Reduction Unit Cost Data.....	3A-160
3A-23	Chemical Phosphorus Removal Unit Cost Data.....	3A-161

## **Chapter 4: Nonpoint Source Technology Analysis..... 4-1**

4.1	Introduction .....	4-1
4.2	Analysis Summary .....	4-1
4.3	Limitations of Analytical Methods.....	4-2
4.3.1	Annual versus Event Loads.....	4-2
4.3.2	Best Management Practices Function in Series .....	4-2
4.3.3	Watershed Basis .....	4-2
4.3.4	Impacts on Instream Water Quality.....	4-3
4.3.5	Traditional Production Theory Not Easily Applied .....	4-3
4.4	Summary of Results .....	4-3
4.5	Chapter Outline .....	4-6
4.6	Volume Indicator.....	4-7
4.6.1	Bioretention.....	4-7
4.6.2	Cistern .....	4-9
4.6.3	Downspout Disconnection .....	4-10
4.6.4	Green Roofs.....	4-11
4.6.5	Parking Lot Stormwater Storage and Treatment (Green Parking Lots).....	4-12
4.6.6	Porous Pavement .....	4-14
4.6.7	Rain Barrels.....	4-17
4.6.8	Rain Gardens .....	4-18
4.6.9	Stormwater Parks .....	4-19
4.6.10	Stormwater Trees .....	4-21
4.7	Total Suspended Solids Indicator.....	4-23
4.8	Agricultural Bench Terraces .....	4-24
4.9	Agricultural Buffer Strips.....	4-25

4.10	Catch Basin Cleaning .....	4-26
4.10.1	Catch Basin Filter .....	4-27
4.10.2	Conservation Crop Rotation .....	4-29
4.10.3	Constructed Wetland .....	4-29
4.10.4	Fine Screens .....	4-30
4.10.5	Infiltration Basin.....	4-31
4.10.6	Riparian Corridors/Buffers.....	4-33
4.10.7	Stormwater Filtration Systems (Sand Filters) .....	4-35
4.10.8	Street Sweeping .....	4-38
4.10.9	Wet Detention Basins.....	4-40
4.8	Coliform Indicator .....	4-42
4.8.1	Livestock Management .....	4-42
4.8.2	Manure Management.....	4-43
4.8.3	Pet Litter Control.....	4-44
4.8.4	Residential and On-Site Sewage Systems Management .....	4-44
4.8.5	Stormwater Disinfection.....	4-45
4.8.6	Waterfowl Control Measures .....	4-47
4.9	Debris .....	4-48
4.9.1	Debris/Trash Management (Litter Control) .....	4-48
4.9.2	End of Pipe Outfall Nets .....	4-50
4.9.3	End of Pipe Outfall Booms .....	4-51
4.9.4	End of Pipe Vortex Separators .....	4-52
4.9.5	Skimmer Boat Operation.....	4-53
4.10	Other Indicators.....	4-54
4.10.1	Convert Land to Prairie .....	4-54
4.10.2	Convert Land to Wetlands.....	4-57
4.10.3	Fertilizer Management.....	4-58
4.10.4	Leadership in Energy and Environmental Design.....	4-59
4.10.5	Road Salt Management (Chloride Reduction) .....	4-62
4.10.6	Water Softener Salt Alternative (Chloride Reduction) .....	4-66

**Chapter 4***Tables*

4-1	Summary of Nonpoint Source Pollution Control Technologies.....	4-4
4-2	Outline of Chapter 4 Technologies.....	4-6
4-3	Parking Lot Cost Comparison .....	4-14
4-4	Sand Filter Comparisons .....	4-36
4-5	Comparison of Sweeper Technology and TSS Removal from Street Surface on Major Roadways.....	4-40
4-6	Financial Benefits of Green Buildings (per Square Foot).....	4-62

**Chapter 5: Beneficial Technologies Not Analyzed ..... 5-1**

5.1	Introduction .....	5-1
5.2	Primary Indicator: Volume.....	5-3
5.2.1	Contract Terms – Milwaukee Metropolitan Sewerage District Contract with United Water Services.....	5-3
5.2.2	French Drains / Dry Wells.....	5-3
5.2.3	Infiltration Sumps.....	5-3
5.2.4	Real Time Control for Storage/Treatment.....	5-4
5.3	Primary Indicator: Total Suspended Solids.....	5-4
5.3.1	Agricultural Practices - Base Slope Storage.....	5-4
5.3.2	Channel Stabilization .....	5-4
5.3.3	Compost Amendments for Erosion Control.....	5-5
5.3.4	Conservation Cover .....	5-5
5.3.5	Construction Erosion Controls - Filter Fabric, Straw, Sedimentation Trap.....	5-5
5.3.6	Contour Farming .....	5-5
5.3.7	Drop Structure Removal.....	5-6
5.3.8	Filter Strip.....	5-6
5.3.9	Grade Stabilization Structure .....	5-6
5.3.10	Grassed Swale .....	5-6
5.3.11	Grassed Waterway.....	5-7
5.3.12	Mulching .....	5-7

5.3.13	Prescribed Grazing .....	5-7
5.3.14	Residue Management .....	5-8
5.3.15	Revegetation Measures - New Development .....	5-8
5.3.16	Runoff Diversion to Reduce Nonpoint Pollution .....	5-8
5.3.17	Streambank and Shoreline Restoration .....	5-9
5.3.18	Strip Cropping .....	5-9
5.3.19	Windbreak Establishment.....	5-10
5.4	Primary Indicator: Nutrients – Phosphorus and Nitrogen .....	5-10
5.4.1	Golf Course Fertilizer Management.....	5-10
5.4.2	Lawn Management .....	5-11
5.4.3	Nutrient Management.....	5-11
5.4.4	Prescribed Burning.....	5-11
5.5	Other Primary Indicators .....	5-12
5.5.1	Pesticide/Herbicide Management.....	5-12
5.5.2	Public Education Programs .....	5-12
5.5.3	Stream Day-Lighting.....	5-13
5.5.4	Wastewater Treatment Plant Outfall Diffuser.....	5-13

## ***Chapter 5***

### *Tables*

5-1	Outline of Chapter 5 Technologies.....	5-2
-----	--	-----

## **Chapter 6: Existing Policies and Programs..... 6-1**

6.1	Introduction .....	6-1
6.2	Agricultural Practices - Crop Management .....	6-3
6.3	Agricultural Practices - Feed Lots .....	6-3
6.4	Agricultural Practices - Irrigation .....	6-4
6.5	Industrial and Chemical Management Controls, and Materials Storage and Containment .....	6-5
6.6	Construction Erosion Controls .....	6-5
6.7	Critical Areas Protection .....	6-6
6.8	Development Rights for Watershed Protection .....	6-6
6.9	Watercourse Dredging to Address Contamination .....	6-6
6.10	Household Hazardous Waste .....	6-7
6.11	Illicit Discharge Control .....	6-7
6.12	Industrial Stormwater Management .....	6-7
6.13	Leaf Disposal Program .....	6-8
6.14	Milwaukee Metropolitan Sewerage District Industrial Waste Pretreatment Program ...	6-8
6.15	Zoning or Land Use Restrictions .....	6-9
6.16	Wastewater Treatment Plant Discharge Permits .....	6-9
6.17	Spill Prevention Plans .....	6-9
6.18	Stormwater Rules and Redevelopment .....	6-9
6.19	Residential Sump Pump Disconnect .....	6-9
6.20	Surface Drainage Management .....	6-10
6.21	Use Controls (Beach Closings) .....	6-10
6.22	Wisconsin Pollutant Discharge Elimination System Cooling Water Permits .....	6-10
6.23	Waste Storage Facilities .....	6-11

### **Chapter 6**

#### *Tables*

6-1	Outline of Chapter 6 Technologies .....	6-2
-----	---	-----

<b>Chapter 7: Eliminated Technologies.....</b>	<b>7-1</b>
7.1 Introduction .....	7-1
7.2 Agricultural – Satellite Treatment .....	7-2
7.3 Alum Treatment .....	7-2
7.4 Equalization Basin at Publicly Owned Treatment Works.....	7-2
7.5 In-line Storage in Combined Storm Sewer Service Areas .....	7-2
7.6 Publicly Owned Treatment Works – Membrane Bioreactor.....	7-3
7.7 Storage by Block (Home Removal) .....	7-3
7.8 Stormwater Sedimentation Tanks .....	7-3
7.9 Vortex Separators – with Chemical Addition .....	7-4
7.10 Water Softener Prevention Program.....	7-4
7.11 Wet Weather Open Storage – Satellite.....	7-5

7-1 Outline of Chapter 7 Technologies.....	7-1
--	-----

### **Chapter 8: Combinations of Technologies ..... 8-1**

8.1 Introduction .....	8-1
8.2 Point Source Technology Analysis .....	8-1
8.2.1 Introduction .....	8-1
8.2.2 Analysis Summary .....	8-4
8.3 Nonpoint Source Technology Analysis.....	8-14
8.3.1 Introduction .....	8-14
8.3.2 Urban Land Use Sensitivity Analysis .....	8-15
8.3.3 Rural Sensitivity Analysis.....	8-16

**Chapter 8**

*Figures*

8-1 SSO Volume Cost Benefit Curves ..... 8-2

8-2 CSO Volume Cost Benefit Curves ..... 8-3

8-3 Screening Alternative 1C: Technology Combinations to End SSOs ..... 8-6

8-4 Screening Alternative 1C: Costs to End SSOs ..... 8-9

8-5 Screening Alternative 1B: Costs to End SSOs and CSOs and  
Screening Alternative 1C: Costs to End SSOs ..... 8-11

**Chapter 8**

*Tables*

8-1 Screening Alternative Comparisons ..... 8-4

8-2 Summary of Alternative Results and Costs ..... 8-13

**Appendix 8A: Sensitivity Analysis of Urban Best Management Practices –  
Underwood Creek ..... 8A-1**

**Appendix 8B: Sensitivity Analysis of Rural Best Management Practices –  
West Branch Root River Canal .....8B-1**
